## RETURN REQUIREMENTS

☐ Completed and signed Breeding Agreement.
☐ Payment receipt for the applicable service fee.
☐ Copy of mare registration papers.
☐ Breeding centre, veterinarian and semen delivery details.
Return completed documents to: lbkemosabe@outlook.com.au

## STALLION SERVICE CONTRACT TERMS

This Agreement is between Last Bottle Syndicate and the Mare Owner named in this Agreement. The Agreement applies to the mare named in this Agreement for service to stallion Kemosabe, Registration No. Q-93296, subject to the following terms and conditions.

### 1. Service Fee

The service fee is $2,200 inc GST. Multiple mare discounts may apply. The service fee is payable in full with this Agreement unless otherwise agreed in writing. No semen will be released and no breeding certificate or service certificate will be issued until all amounts owing to Last Bottle Syndicate have been paid in full.

### 2. One Mare Per Agreement

This Agreement applies to one mare only. A separate agreement must be completed and accepted for each mare. The Mare Owner must not use semen supplied under this Agreement to breed any mare other than the mare named in this Agreement. Any change to the contracted mare requires written approval from Last Bottle Syndicate and may require a new or amended agreement.

### 3. Multiple Mare Discount

The second and subsequent mare fee applies only where multiple mares are booked by the same Mare Owner or entity, unless Last Bottle Syndicate approves otherwise in writing. The discount is not transferable between unrelated mare owners and may be withdrawn if booking, payment or ownership details are inaccurate.

### 4. Semen Type, Collection and Release

Kemosabe semen may be supplied as chilled semen or frozen semen where available and where approved by Last Bottle Syndicate. Semen collection, release and dispatch are subject to stallion availability, semen availability, collection scheduling, veterinary availability, courier availability, semen quality on the day of collection and receipt of the completed Agreement, mare papers and required payment.

### 5. Veterinary, Collection and Freight Costs

All veterinary, semen collection, handling, storage, chilled semen, frozen semen, dispatch, courier, freight and return freight costs are separate from the service fee and are payable by the Mare Owner. These charges may be invoiced directly by the collecting veterinarian, breeding centre, semen storage facility or courier. Last Bottle Syndicate is not responsible for semen delayed, damaged or lost in transit.

### 6. Chilled Semen

Chilled semen will only be provided after Last Bottle Syndicate has received a completed and signed Agreement, a copy of the mare registration papers, required payment and breeding centre delivery details. Last Bottle Syndicate will use reasonable efforts to provide suitable semen but gives no warranty that semen will result in pregnancy.

### 7. Frozen Semen

Frozen semen, where supplied, remains the property of and under the control of Last Bottle Syndicate and may only be shipped to an approved veterinary hospital, breeding centre or semen storage facility. The Mare Owner must not collect, store, sell, transfer, divide, distribute or use frozen semen for any purpose other than breeding the mare named in this Agreement. Freight to the breeding centre and return freight for unused semen are separate costs payable by the Mare Owner.

## 8. Ownership and Use of Semen

All Kemosabe semen remains the property of Last Bottle Syndicate. Semen supplied under this Agreement is supplied for the purpose of breeding one foal from the mare named in this Agreement only. Unused semen must not be retained or used for any other mare or purpose unless Last Bottle Syndicate gives written approval.

## 9. Embryo Transfer and Additional Foals

The service fee entitles the Mare Owner to the genetics of Kemosabe for one resulting live foal only. If embryo transfer is used and more than one embryo, pregnancy or foal results from the use of Kemosabe semen, an additional service fee is payable for each additional embryo, pregnancy or foal. Unless otherwise agreed in writing, the additional service fee is payable upon confirmation of pregnancy.

## 10. Live Foal Guarantee

The service fee includes a live foal guarantee for one foal only. A live foal means a foal that stands and nurses without assistance and survives for 48 hours after foaling. If the mare aborts, or if the foal is stillborn or dies within 48 hours of foaling, the Mare Owner may be entitled to a return service in the breeding season immediately following the original service, provided the Mare Owner complies with this Agreement.

## 11. Requirements for Return Service

To qualify for a return service under the live foal guarantee, the Mare Owner must notify Last Bottle Syndicate within 48 hours of the foal death or as soon as reasonably practicable after abortion, and must provide a certificate from a licensed veterinarian confirming the abortion, stillbirth or foal death. All semen collection, veterinary, agistment, shipping, freight and related costs for the return service are payable by the Mare Owner.

## 12. Loss of Live Foal Guarantee

The live foal guarantee is void if the mare dies, is sold, leased or transferred without written approval, becomes unsuitable to breed, is returned to work or competition after a positive pregnancy test without veterinary approval, does not receive reasonable veterinary care, or if the Mare Owner fails to give required notice or veterinary evidence. If the Mare Owner elects not to use the return service in the following breeding season, the guarantee is lost unless Last Bottle Syndicate approves otherwise in writing.

## 13. Pregnancy Reporting and Breeding Certificates

The Mare Owner must notify Last Bottle Syndicate of the pregnancy result at approximately 45 days and must provide breeding and insemination dates required to complete the breeding certificate or stallion breeding return. Breeding certificates will not be issued unless the mare is registered with the relevant society at the time of signing this Agreement and all accounts are paid in full. Any late stallion breeding return, late lodgement fee or society fee caused by late information from the Mare Owner is payable by the Mare Owner.

## 14. Registration and Breed Societies

Last Bottle Syndicate will provide AQHA and/or ASHS breeding certificates for eligible mares and eligible resulting foals, subject to society requirements and full compliance with this Agreement. Any Mare Owner seeking registration with another breed society is responsible for obtaining and providing any required documentation or certificate for completion. Last Bottle Syndicate does not guarantee that any foal will be accepted for registration by any breed society.

## 15. Mare Health and Suitability

The Mare Owner warrants that the mare is healthy, tractable, handled to lead and in suitable breeding condition. Last Bottle Syndicate, the breeding centre, veterinarian or handler may refuse to handle or breed any mare considered unsafe, unsuitable, unhealthy or not in breeding condition. All veterinary treatment, examinations, medications and procedures are the responsibility of the Mare Owner.

### 16. Agistment

Agistment is the responsibility of the Mare Owner and must be arranged directly with the relevant veterinary facility, breeding centre or agistment provider. All agistment fees, feed charges, handling fees, veterinary expenses and related costs are payable by the Mare Owner directly to the provider unless otherwise agreed in writing.

### 17. Stallion Unavailability

If Kemosabe dies, becomes unfit for service, is unavailable for service, or semen becomes unavailable and Last Bottle Syndicate cannot reasonably fulfil this Agreement, this Agreement may be cancelled. If cancellation occurs before semen has been supplied, the service fee paid to Last Bottle Syndicate will be refunded, less any non-refundable costs already incurred. Last Bottle Syndicate is not liable for consequential loss, loss of opportunity, veterinary costs, agistment costs, transport costs or other expenses incurred by the Mare Owner.

### 18. Assignment and Transfer

This Agreement is personal to the Mare Owner and the mare named in this Agreement. It must not be assigned, transferred, sold or otherwise dealt with without prior written approval from Last Bottle Syndicate.

### 19. Limitation of Liability

The Mare Owner acknowledges that breeding involves inherent risks, including infertility, pregnancy loss, injury, sickness, disease, death, semen transport delays, semen quality variation and failure to conceive. To the maximum extent permitted by law, Last Bottle Syndicate is not liable for injury, sickness, disease, death, failure to conceive, loss of pregnancy, loss of foal, loss of opportunity, loss of income or consequential loss arising from this Agreement, except to the extent caused by proven negligence or wilful misconduct of Last Bottle Syndicate.

### 20. Entire Agreement

This Agreement contains the entire agreement between the parties and replaces any prior discussions, representations or understandings. Any variation to this Agreement must be in writing and signed or approved by Last Bottle Syndicate.

## ACKNOWLEDGEMENT AND SIGNATURES

☐ I acknowledge that I have read, understood and accepted the terms and conditions of this Agreement.

☐ I confirm that the mare details, registration details, breeding centre details and payment details supplied are true and correct.
